BAYSCENT®
AROMAWELLNESS

BAYSCENT[®] ACAI

Acai is the black-purple berrylike fruit of a specie of palm.

Acai is notorious for its antioxidants, containing Vitamins A, C and E that boost your body's defence system.

It is rich in energy giving protein and recommended as a promoter of weight loss. Last but not least, it is said to have a positive effect on one's love life.

BAYSCENT® ACE consist of the Vitamins A, C and E.

Vitamin A is an anti-oxidant which protects the body against free radicals and enhances the immune system.

Vitamin C is an essential ingredient for maintaining a healthy and functioning body. It protects you against toxic minerals.

Vitamin E is essential to keep the body feeling and looking young.

BAYSCENT[®] Aloe Vera

The Aloe Vera plant is rich of various components and has a multitude of effects. It will moisturize the skin, restores its natural balance and is anti-aging.

It is also anti-inflammatory and can relieve muscle pains. The essential oil is used with all active ingredients, unlike water based products on the market.

BAYSCENT® Body Lotion

This is a special blend of aroma's from lotion, rose, jasmine, fresh flowers combined with the properties of Ylang-Ylang.

It will reinforce the natural balance between body and mind.

Additionally it will revive the skin through moisturizing.

BAYSCENT[®] Camomile

Camomile is an extract from the flower chamomile and famous for its herbal effects of increasing the volume of the blood flood and its moisturizing effect.

It has an antimicrobial effect and Ultra-Violet absorption property (UV-cut effect). The camomile odor keeps everything smelling like fresh laundry.

BAYSCENT® Fleur de Lavande

The properties of the Lavender flower are numerous and well-known since ancient times.

The essence obtained by distillation of the flowers is anti-septic, analgesic and anti-inflammatory.

It's also used for its relaxing, calmative, sedative and lenitive quality.

BAYSCENT[®] Ginseng

The ginseng plant is the most famous natural product with vitalizing properties.

It is rich in various components which relieve stress and muscle pains.

It is invigorating and restores the natural immune system.

BAYSCENT® Green Tea

The natural anti-oxidants, minerals and vitamins ensure that regular green tea drinkers have lower chances of heart disease and developing certain types of cancer. It also controls the cholesterol level and blood pressure.

The green tea extract has been shown to be useful for "obesity management", since it induces thermogenesis and stimulates fat oxidation.

It refreshes your mind, lifts your spirit and improves your overall wellbeing.

BAYSCENT® Orange Tea & Red Tea

Orange Tea prevents and possibly reverses artery clogging, its anti-oxidants stop free radicals, which cause cell damage. It lessens inflammation, treats diseases such as pneumonia, cystitis and skin infections. Orange tea helps alleviate respiratory diseases.

Red tea helps ease cases of insomnia, irritability, headaches, nervous tension and hypertension. It is treats allergies such as hay fever, asthma and eczema very effectively. It contains anti-oxidants which help slow the aging process and boost the immune system.

BAYSCENT[®] Relief

The active components show an anti-irritating effect on the upper layer of the skin, obtained by interaction with the signal molecules in the surface layers of the upper skin.

The interaction slows down the dynamic and vascular responses, causing the redness and burning of the skin.

BAYSCENT SCENTING AGENTS consists of the following:

- * BAYSCENT Lavender
- * BAYSCENT Limone
- * BAYSCENT Rose
- * BAYSCENT Sandalwood
- * BAYSCENT Strawberry
- * BAYSCENT Vanilla Bouquet

BAYSCENT[®]
SCENTING AGENTS

BAYSCENT® Lavender

The scent of Lavender is often used in cosmetics, such as soap and perfume.

The fragrant, pale purple flowers and flower buds are also used in potpourris. Dried and often sealed in pouches, they are placed among stored items of clothing to give a fresh fragrance and to deter moths.

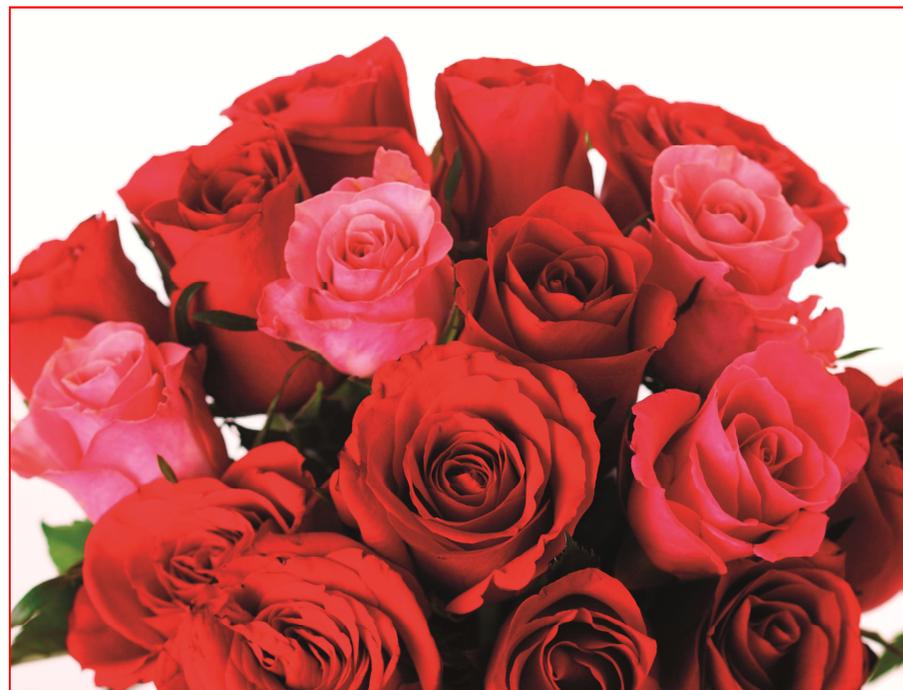

It is soothing, it aids sleep and relaxation.

BAYSCENT[®] Limone

Lemons are used since ancient times. From a healthy and nutritional ingredient for food preparations, to cleaning and anti-bacterial purposes and as a natural deodorizer.

It neutralizes smells and gives an refreshing scent in its place. Its scent is said to enhance mood.

BAYSCENT® Rose

The rose is traditionally known as the queen of all flowers, which is represented by its appealing and alluring scent.

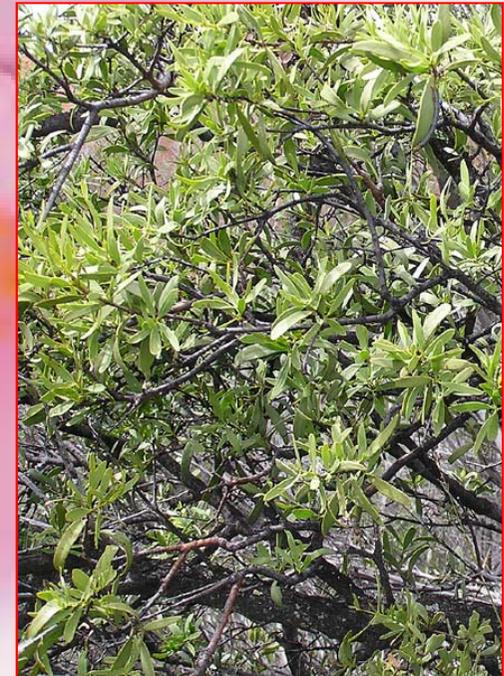

The rose is the number one fragrance used for perfumes, as it's sweet but not too overpowering.

Its scent is said to soothe negative emotions and can reinforce memory.

BAYSCENT[®] Sandalwood

Sandalwood has an intriguing scent, a bright and fresh edge with few natural analogues. It retains its fragrance for decades.

Sandalwood scent is believed to transform one's desires and maintain a person's alertness while in meditation. Sandalwood creates a warm, deep, earthy and exotic ambiance.

BAYSCENT® Strawberry

The sweet but delicate scent of strawberries awakens positive associations to all good things in life: summertime, sun and indulging in the food of love.

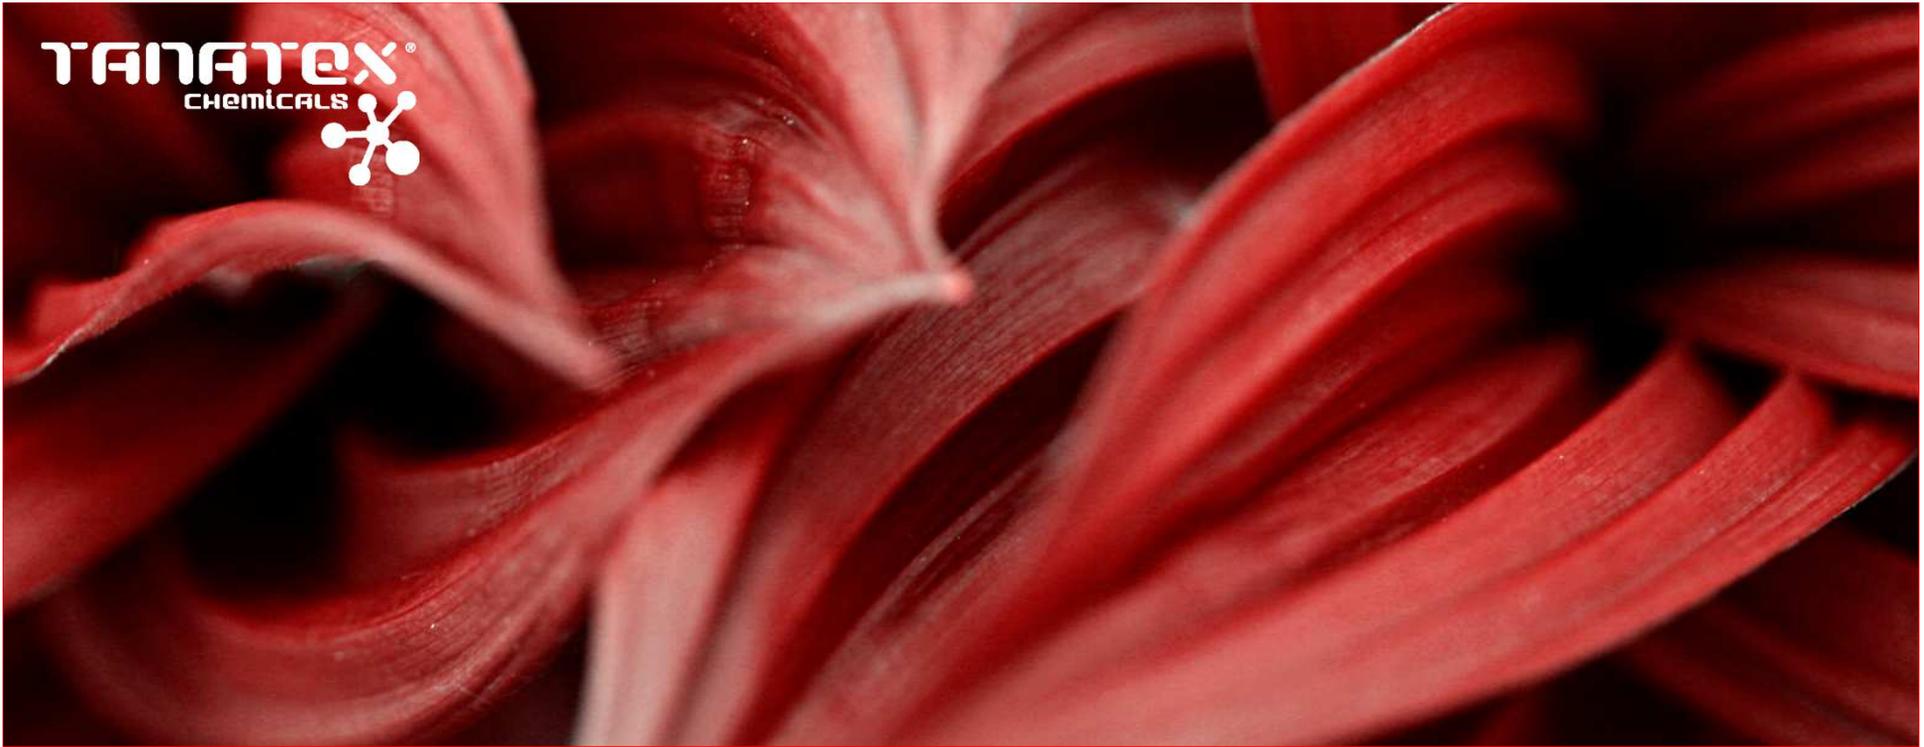

The odor provides a quick delight to our sense, soothes and balances body and mind.

BAYSCENT[®] Vanilla Bouquet

Vanilla is a very dominant, thus popular ingredient in high-end perfumes. Many associate the smell of vanilla, its comforting milky warmth, with pleasant childhood memories.

Vanilla is associated not only with warmth, softness and caring, but also has connotations of purity and simplicity.

BAYSCENT SPECIALTIES consists of the following:

* BAYSCENT Neutralizer

BAYSCENT®
SPECIALTIES

BAYSCENT® Neutralizer

This specialty finish eliminates bad and unwanted odors. Even under extreme circumstances the fabrics remain fresh and render a pleasant smell.

It is perfect for sports- and work wear or intensively used carpets:
it helps to keep things as neutral as possible.
