

**Insect Proof**

DURABILITY

# Insect Proof

Nothing ruins the peace and quiet like a mosquito buzzing in your ear, or worse, a mosquito bite. Golf players, hikers, hunters, fishermen and especially military personnel need to protect themselves against these annoying insects. TANATEX's Insect Proof concept deters flying and crawling insects.

# Insect Proof

## PROTECTION THAT LASTS

We have all been on that one holiday. You do not remember the beautiful lakes and nature, but remember the insects at night. With TANATEX's Insect Proof concept, you can now enjoy a hike without having to worry about unwanted company. The long-lasting finish protects users from insects stinging through the fabric and does not leave a negative effect on handle. It also deters ticks that transmit Lyme disease. Insect Proof is a finish that can be used on all types of fabric, lasts up to 100 washes and is not noticeable to the user.

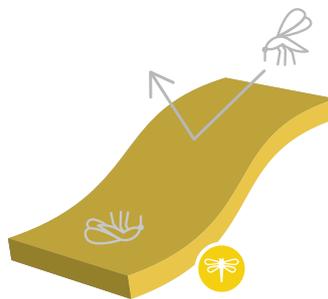

## QUALITY CHOSEN BY THE BEST

The anti-insect concept is composed of various components to ensure performance as required in uniforms worn by the most professional armies in the world. These uniforms have to comply with high norms and are used by soldiers deployed in malaria endemic regions. The active ingredient Permethrin is the only insecticide accepted by the United States Environmental Protection Agency (EPA) to be used on clothes in the United States. Treated textiles can be laundered, starched, and pressed!

## PRODUCTS

The active component of Insect Proof concept is a synthetic pyrethroid, a substance similar to the substance found in flowers like chrysanthemum. Combined with TANATEX's unique binder system the concept has a profound long-lasting effect.

## HOW DOES IT WORK

*Deter flying and crawling insects and prevent them from stinging.*

## ABOUT TANATEX

TANATEX Chemicals develops innovative textile processing solutions, ranging from pre-treatment to finishing. The state-of-the-art products are based on trends and demands in today's (technical) textiles and carpet processing industry. Through a worldwide network of offices, agencies and distributors, TANATEX Chemicals supplies its global customers with quality wet processing products and provides a high level of technical service. For over 50 years, the company has proven to be a reliable partner in solving its customers' challenges providing them with competitive advantages and fit-for-purpose chemical solutions.
