## PERFECT DYEING

- POLYESTER
- ECONOMIC
- RIGHT-FIRST-TIME
- FAST
- EASY
- COLOURATION
- TIME SAVING

Time is money. The fast moving textile world is constantly looking for ways to speed up the process of dyeing. So far, problems with homogeneous dye uptake have occurred. PERFECT DYEING concept offers an optimized dyeing process that saves time to process polyester textiles, and guarantees level dyeings.

# PERFECT DYEING

### USING MAXIMUM CAPACITY

PERFECT DYEING is a unique concept that leads to a better utilization of dyeing machines. By using innovative and tailor-made dyeing auxiliaries the dyeing of polyester fibres can be carried out faster with less risk of unlevel dyeings. Due to an optimized dyeing process without intervals, the productivity of the dyehouse is steadily increased, saving both valuable processing time and money. A shorter dyeing time with reduced numbers of cycles will put less stress on elastane containing fabric such as polyester/elastane blends.

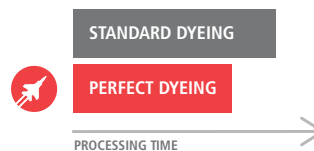

### HIGH PERFORMANCE AUXILIARIES

The use of high performance dyeing auxiliaries allows the optimization of the dyeing process for polyester. The dispersing agent has outstanding dispersing power during the entire dyeing process. The synchronizing agent slows down the uptake of the dyes, leading to outstanding levelling and guarantees a homogeneous uptake of the dye combination. The accelerator will support the diffusion of the dyes when for example highly twisted yarn needs to be dyed.

### PRODUCTS

The unique concept combines dispersing and synchronizing levelling agents with a diffusion accelerator with excellent migrating properties to guarantee safe dyeing in less time.

### HOW DOES IT WORK

*Reduce your process time and increase your dyehouse efficiency.*

### ABOUT TANATEX

TANATEX Chemicals develops innovative textile processing solutions, ranging from pre-treatment to finishing. The state-of-the-art products are based on trends and demands in today's (technical) textiles and carpet processing industry. Through a worldwide network of offices, agencies and distributors, TANATEX Chemicals supplies its global customers with quality wet processing products and provides a high level of technical service. For over 50 years, the company has proven to be a reliable partner in solving its customers' challenges providing them with competitive advantages and fit-for-purpose chemical solutions.
